2004 Martin is bought by Steinway and all production ends in Kenosha and Elkhart

2008 all outsourced Martin instrument production ends

Instruments marked “Martin Busine” are not related to the Martin Company. Some saxophones are reported as being Dolnet or Grassi stencils and could be purchased through The Unity Catalog which later became LaBelle’s. These would date to the 1960s and 1970s. One cornet found was marked “Italy” and a trumpet was marked “Czechoslovakia”.
