

Nu-Rim Mouthpieces

??

Mouthpieces marked "NU-RIM" occasionally show up for sale but there is no information out there on this brand. The only company incorporated with that name is Nu-Rim Inc. from January 5, 1977 and dissolved on June 8, 1981. They were located at 230 Warner Ave, Room 215, in Santa Ana, CA.

The incorporation listing did not show what the company did, so I am not certain if this is a match. The mouthpieces have a style which would imply a much earlier time. My guess would be that these date to the 1940s or 1950s. Cornet examples are marked "A" or "B".

Any information on the source of these would be much appreciated.
