6908	1892	Alto	Superior	First Class Pepper Maker P&C
7009	1892	Cornet	Premier	Highest Medal Chicago 1893 P only on bell; P&NY on valves; in C I have no idea what to make of this one. The "P&NY" on the valves would imply 1886 or earlier, the 7009 number on both the valve & bell would imply 1892, the Chicago award was late 1893, and the lack of the Chicago address on the bell would indicate 1897 or later. Was this a leftover C cornet that was finished later?
