

Vega Advanced Triumphal Trumpets

1932 - 1936

The earliest mention I have found for the Advanced Triumphal model is from November of 1932 (below). Examples found have ranged from 33000 to 36000 before being replaced by the Power model.

November 1932 International Musician ad.

ADVANCED TRIUMPHAL

**Burnished Valves
Recessed Action
Playing Flexibility
Greater Power
Distinctive Design**

Now it is here. The finest of all instruments is now available at a new low price. New, greatly improved models, too!

You will naturally insist on seeing the new Vega. Notice its distinctive appearance with octagon design trimmings and exclusive Vega recessed valve action and, most of all, the definite improvement in playing and tone quality.

New style Gladstone case included as equipment without extra charge.

Lower in price, but finer than ever.

19.5" long; 4.65" bell; 0.447" bore

#33091 from 1933

#33244 from 1933

#33570 from 1933 (#2 at right).

#34081 from 1934 (#3 at right).

1934 ad including Bunny Berigan!

Bell from #35137

This photo shows they have switched to a 2-piece bell.

PAUL WHITEMAN'S Trumpeters ≡

≡ **Use the New VEGA!**

Three famous players, left to right, Bunny Berigan, Goldie Goldfield, Nat Natalie of Paul Whiteman's Orchestra, selected above all other makes the new advanced Triumphal.

All three men say it is the finest trumpet they ever used. It has the right kind of tone, blowing qualities, intonation and power.

Who has always been the leader in trumpet development? In modern design? Patented low valve action? The answer is Vega, and naturally should be, as Vega specializes on Trumpets and always dominates the top notch quality class. Now it is lower in price and still finer than ever!
