

ADIRONDACK COMPANY'S OFFICE,

SARATOGA SPRINGS, June 22^d 1869

R. Comms Esqr
Troy N. Y.

Dear Sir

Can you
in the course a week or two,
when the weather becomes
settled, and the timber in
bridges well dried out, send
me a good man to look over and
tighten up the rods and bolts in
our bridges - You spoke of it
last winter, and I am anxious
to have it done as soon as they are
dried out enough -

I expect to be away for a few
days after the latter part of the
week, but shall be glad to
hear from you soon -

Yours Truly
S. M. Seymour
